

Integrity in Uniform - The Case for a Standards Investigation

Presenting multi-layered evidence of potential administrative rule violations by Major Donnie Steve Freeman.

THE CORE CONTRADICTION (UNTRUTHFULNESS)

Sworn Testimony
Major Freeman testified under oath that he obtained an arrest warrant before the arrest.

Court Record
The magistrate's order explicitly states the defendant was "arrested without a warrant."

Misrepresentation of the Arrest Sequence
Evidence suggests the defendant was detained and "not free to leave" long before any magistrate process was initiated, contradicting the officer's "warrant-first" narrative.

Violation of 12 NCAC 09A .0204(b)(18)
This specific administrative rule authorizes adverse action against an officer found to be untruthful during criminal or rules investigations.

PATTERN OF INVESTIGATIVE DISTORTION

One-Directional Witness Recasting
Witness statements were "strengthened" or altered—recasting an accidental observer as an active searcher—to support an accusatory narrative.

Undisclosed Conflict of Interest
Major Freeman allegedly utilized a witness, Carmen Love, who was his sister-in-law and the complainant's cousin, without disclosing these relationships to the magistrate or jury.

Omission of Exculpatory Leads
The investigator reportedly failed to interview obvious witnesses and ignored a "make it go away" text message from the complainant's circle that could have indicated motive.

EVIDENCE & FORENSIC FAILURES

Substandard Evidence Preservation
Multiple items associated with the complainant (including a phone and wallet) were never properly logged into evidence control or forensically examined before being returned.

Lack of Forensic Processing
Despite the nature of the allegations, no DNA testing was performed on key items, and the alleged assault location resolved only photographs without meaningful forensic collection.

Rushed Investigation Timeline
The initial investigation was reportedly completed in just four hours before the arrest was made, suggesting a prioritization of rapid case construction over thoroughness.

POLICY 02-13 VIOLATIONS

De Facto Arrest Without Probable Cause
By admitting the defendant was not free to leave, Major Freeman triggered the policy threshold for arrest, yet failed to acknowledge the seizure occurred before probable cause was established.

Failure to Present to Magistrate
Policy 02-13 requires taking an arrestee before a magistrate without unnecessary delay; the record shows Major Freeman went to the magistrate alone while the defendant remained detained.

Mischaracterization of Legal Process
The officer's failure to distinguish between a warrant-based arrest and a post-arrest magistrate order is a direct violation of departmental classification standards.
